Subject: Terwilliger Fire Suppression Repair Plan

To: Regional Forester

The enclosed Terwilliger Fire Suppression Repair Plan, prepared by the McKenzie River Ranger District, intends to mitigate adverse impacts from fire suppression activities. Most of the repair work was completed by the 5 fire teams as ongoing work during the fire suppression effort. The remaining repair work can be found in Appendix A –Repair Needs (pp. 7-18), and Appendix B – Additional Repair Prescriptions (pp. 19-21). Appendix C – Suppression Repair Cost Summary (p. 22) summarizes the remaining costs. Lastly, the completed repair work is captured in Appendix E – Completed Repair Work (pp. 32-57).

The McKenzie River Ranger District is submitting this repair plan to request approval to use the P Code to complete remaining repair work. Work would be completed during the 2019 field season, fully repairing all suppression efforts implemented on the fire.

Total funding request to complete all post-fire repairs is \$768,829. If there are any questions regarding this request, please contact District Ranger Darren Cross.

Sincerely,

TRACY BECK
Forest Supervisor
